EDUCATION

PhD	University of Delaware, Linguistics and Cognitive Science Advisor: Zhenghan Qi	May 2024
MA	University of Delaware, Linguistics and Cognitive Science	May 2021
BA	University of Illinois at Urbana-Champaign, Linguistics Graduated Summa Cum Laude Queen Mary University of London (exchange student) Minored in Speech and Hearing Sciences, Teaching English as a Second Language	May 2018

CURRENT RESEARCH PROJECTS

Implicit Learning and Language Development

Dissertation Project: The Role of Prior Language Experience in Linguistic Statistical Learning

- Explore functional connectivity between language comprehension networks, attention networks, and the whole-brain during linguistic SL in neurotypical children
- Assessed how prior linguistic experiences influence SL in autistic children and those in reading intervention programs

Project 2: Statistical Learning and Language Development in Autistic and Neurotypical Children

- Identified behavioral indicators of language impairment in autistic children by analyzing statistical learning in multiple domains and modalities ([published paper](#))
- Uncovered the neural bases of statistical learning in neurotypical adults and children using functional magnetic resonance imaging (fMRI) techniques ([poster](#))

Project 3: Speech Learning through Implicit Imitation in School-aged Autistic Children

- Investigated pitch imitation and prosodic variances in autistic children by comparing pitch entrainment to model talkers in sentence repetition tasks ([published proceeding](#))
- Developed and launched web-based audio recording software for at-home speech data collection

Social Learning and Vocabulary Acquisition

Project 4: Incidental Word Learning in Social Contexts in Autistic Children

- Compared word learning and retention from storylistening in a direct-addressed versus an overhearing social contexts in school-aged autistic children ([poster](#))
- Executed a 3-year production process for naturalistic story stimuli, encompassing script development, filming, editing video and audio materials
- Tailored online experimental platform to capture eye tracking data

Project 5: Quality of Web-based Eye Tracking Experiments in Children

- Partnered with various labs across institutes to analyze web-based eye tracking data, assessing its quality in child developmental research ([poster](#))
- Engineered a Python script for eyegaze coding, enhancing efficiency by 50%

LABORATORY EXPERIENCE

Language Acquisition and Brain Lab, UDEL & Northeastern University 2018 - Present **Graduate Student Researcher**, Advisor: Zhenghan Qi

- Directed training in transcription, eye-tracking coding, and experiment administration
- Engineered gaming platforms and audio recording tools for online research
- Streamlined documentation and collaborated with cross-institute Review Boards

Language Acquisition Lab, UIUC 2017 - 2018 **Undergraduate Research Assistant**, Advisor: Cynthia Fisher

- Collected and coded eye tracking data in word learning studies with toddlers

Electrophysiology and Language Processing Lab, UIUC 2017 - 2018 **Undergraduate Research Assistant**, Advisor: Darren Tanner

- Administered event-related potentials (ERP), eye-tracking, and speech production studies on sentence processing in adult second language learners

Second Language Acquisition and Bilingualism Lab, UIUC 2016 - 2018 **Undergraduate Research Assistant**, Advisor: Tania Ionin

- Constructed Mandarin stimuli and led studies on object-substance recognition related to classifier use in Korean and Chinese speakers.

Hu, A., Trice, K., Weng, YL., & Qi, Z. (October 2022). “[Greater plasticity in the language network in children than adults during statistical learning](#)”. Poster at *Society for Neurobiology of Language (SNL)*, Philadelphia, USA.

Hu A., Kozloff, V., Owen Van Horne, A., & Qi, Z. (June 2022). “[Disassociation between linguistic and nonlinguistic statistical learning in children with autism](#)”. Poster at *International Conference on Interdisciplinary Advances in Statistical Learning*, San Sebastian, Spain.

Hu, A., Kozloff, V., & Qi, Z. (April 2021) “[Relationship between linguistic statistical learning and grammar development in children with autism spectrum disorder](#)”. Poster at *Society for Research in Child Development (SRCD)*. Virtual.

Hu, A., Kozloff, V., & Qi, Z. (November 2019) “[Multimodal Statistical Learning in Children with Autism Spectrum Disorder](#)”. Poster at *The 44th Boston University Linguistics Conference on Language Development (BUCLD)*. November 7-10, Boston University.

Ovans Z., Ayala A., Asmah R., Hu A., Montoute M., Van Horne A., Qi Z., Morini G., & Huang Y.T. (2023). [The feasibility of online \(virtual-world\) eye-tracking with young children](#). *Annual Human Sentence Processing Conference*, Pittsburgh, PA.

Lei, Y., Hu, A., Yan X., & Shih, C. (March 2019). “A Corpus-driven, Curriculum-based Approach to Assessing Less Commonly Taught Language in US Universities”. Poster at *American Association for Applied Linguistics (AAAL)*. March 9-12, Atlanta, GA.

HONORS AND AWARDS

Unidel Distinguished Graduate Scholar Competitive Fellowship 2018 - 2024
Annual stipend of \$34,000, complemented by \$3,000 for research expenses

Society for Language Development Student Award 2022
One of two winners for the year, awarded SLD membership and \$150

Gorilla Experiment Builder Grant ([Spotlight Interview](#)) 2020
One hundred experiment participant tokens

College of Arts and Sciences Graduate Student Travel Awards 2019
Granted \$1,395 for training in hyperscanning studies at the State Key Laboratory of Cognitive Neuroscience, Beijing Normal University

Outstanding Undergraduate Student in Linguistics 2018

Dean's List 2014 - 2018

PROFESSIONAL TRAINING

ADOS-2 Clinical Workshop
Washington, DC, July 11-12, 2019

Training on Neural Synchronization and Hyperscanning Techniques
State Key Laboratory of Cognitive Neuroscience and Learning, Beijing Normal University, China, June 2019

PROFESSIONAL SERVICE

Graduate Student Colloquium Committee, UDEL 2018 – 2022

- Organized monthly colloquiums, hosting scholars from leading universities for two-day departmental visits
- Spearheaded student conferences on linguistics and cognitive science, reviewing abstract submissions from top institutions

Experimental Group Meeting Committee, UDEL 2018 –2020

- Coordinated weekly intra-departmental student meetings focused on experimental research
- Facilitated journal clubs and programming workshops

Division of General Studies Leaders, UIUC 2016 –2018

- Acted as an advisory board member to the DGS Director, offering monthly feedback and recommendations for the College of General Studies

LANGUAGES

English: Native-like

Cantonese/ Mandarin: Native Language

Korean: Fluent Listener and Speaker

Japanese: Proficient Listener

COMPUTER SKILLS

Programming: R (advanced), Git (advanced), Java Script (intermediate), Python (intermediate), Shell (intermediate), HTML (intermediate), CSS (intermediate), PHP (novice), Matlab (novice)

Platforms and Frameworks: Gorilla Experiment Builder, Bluehost, Qualtrics, Github, jsPsych, Node.js,

Software: Docker, Adobe Premiere Pro, Praat, Audition, Microsoft Office
